PLUTO IN AQUARIUS

SECRET
OFFER
€11.11

holymama

Original audio

- Women as receivers & a reciprocal force for wealth, rather than being martyrs & 'over-givers'.

- Shame around generational wealth & that it might not be 'your shame' but ancestral.

- Fear of raising prices & leaving others behind.

- The healer archetype & being 'punished' for charging for your work.

- Your role in the shift and what mine is...

Happy Pluto to Aquarius transition. It's a whole new age 🌈

🎉 I can't wait to celebrate with you because expanding you & your business is my love language ♡+°

The 'Secret Offer' will be available for € 11.11 for 48 hours from the 'shift'. 🥂

AS THE CEO YOU NEED TO KNOW HOW TO DO EVERYTHING

+ +

Many of us generation X-ers were born to be the 'first wavers' of what I call the *spiritual revolution* or the *rebirth revolution*. The following generations are here to anchor in those changes, and our children well, they will be adults in an entirely different world.

So today is the big day. A day like many others, yet there is a sense of change in the air.

I like to see astrology as a map of archetypes for us to interpret trends and cultural shifts, basically evolution for our species on this blue magnetic rock. Pluto is associated with rebirth, renewal and transformation. It is one of the 'interpersonal' or 'generational' planets, and this means if you have a baby born between now and 2043 it will have Pluto in Aquarius.

And I can assure you of this: We're going to see a lot more innovation around technology, community, autonomy, healing, ecology, and progress in the way we live our lives.

To celebrate the shift I have released a ✨ Secret Offer ✨
